Myanmar

### Nationality

Myanmar/Chin tribe

### Profile

Analytical and energetic with broad and deep experience in frontend development and programming, including high problem solving skill, love challenges, creative. A bit nervous for every first time but highly adaptative. Always eager to learn new skills.

### Experiences

#### UI/UX Frontend Intern

*March 2022—2023*

Bagan Innovation Technology • Myanmar, Yangon

During my internship at BIT, I was responsible for developing user interfaces and creating reusable components, which significantly improved the efficiency of our development process. I also contributed to the development of new features, ensuring a seamless and intuitive user experience. My role involved close collaboration with the design and development teams to translate requirements into functional and visually appealing interfaces.

#### Freelancer software developer

*June 2023-present*

Freelancer • Malaysia, Port Klang

### Education

Self-learning , Never been to Computer science College or University.
